DETAILED ACTION

Information Disclosure Statement

1.   Information Disclosure Statement submitted on 8/8/03 has been considered by

the examiner.

Drawings

2.   Drawings filed 7/18/03 have been approved by the examiner.

Allowable Subject Matter

3.   The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed.

For independent claim 1, the prior art on record fails to teach or fairly suggest,

singly or in combination, for generating a high dynamic range (HDR) image from an

image sequence of a scene captured while varying the exposure of each image,

comprising among other things, "for each image except the reference image, register

the image under consideration with the image, including the reference image, which

exhibits an exposure that is both closer to that of the reference image than the image

under consideration and closest among the images to the exposure of the image under

consideration, to generate a flow field, concatenate the flow fields generated for the

non-reference images not already registered with the reference image, to register each

of them with the reference image, warp each non-reference image using the flow field

associated therewith, and combine the reference image and the warped images to

create a radiance map representing the HDR image."

4.   Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other prior art cited

5.   The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Szeliski (US 6,650,774 B1) discloses a locally adapted histogram equalization.

Szeliski (US 6,687,400 B1) discloses a system process for improving the uniformity of the exposure and tone of a digital image.
